

## **4-H State Leadership Conference 2018 Workshop Descriptions**

### **Scribbler Robotics**

Presenter(s): Dennis Derickson, Sara Derickson, Gudrun Derickson, Sigrid Derickson, and Dagmar Derickson

*Description:* This session will give an introduction to robotics using the scribbler II robot. Participants will learn how to move the robot, navigate a maze and then do coordinated robot dance routines

### **Fun with a Purpose: Backstage Pass**

Presenter(s): Scott Mautte

*Description:* The purpose of this session is to show participants how using icebreakers and energizers creates safety and builds healthy relationships while giving them proven team building activities that will be both fun and engaging. Participants will walk away with both the knowledge and the skills to not only lead activities but lead the workshop for others in their counties.

### **Improv 4 All**

Presenter(s): Michelle Petro

*Description:* Want to learn the basics of playing improvised games, have fun, build confidence, sharpen your mind, encourage communication, and work as a team!? Then this workshop is for you!

### **Teens as Teachers: How you as a teen can bring new programs to your community**

Presenter(s): Car Mun Kok and Claudia P. Diaz Carrasco

*Description:* This workshop will focus on preparing 4-H youth members to start a 4-H teens as teachers program as an effort to reach new audiences in their communities while expanding their leadership, teamwork, and communication skills. The purpose of this workshop is to empower 4-H teens to make community connections by bringing new 4-H programming into their communities through new and existing venues by providing them with tools and activities from the Youth Experiences in Science (YES) curriculum.

### **Make your own Google Logo**

Presenter(s): Vicky Lopez-Cantwell and Emily Stenzler

*Description:* Be a designer and programmer – bring the Google logo to life using code! This is a hands on workshop where members will be using the Scratch software to create their very own Google Logo.

## **Goal Settings for Your Future**

Presenter(s): Thomas Stratton

*Description:* This workshop will get you thinking about the many different ways to organize your goals, but focus on the development through the GPS model. We will start with some basic goals of your own and build from their to plan for your future.

## **Bridging Your Emotions**

Presenter(s): State Ambassadors

*Description:* Life can be difficult to navigate if you don't quite understand your emotions. Through this workshop, you'll be able to better connect with people as well make better decisions and make lasting relationships!

## **Using the Money Talks Toolkit in Your Lives & Communities**

Presenter(s): Derrick Robinson

*Description:* Participants will identify how they interact with money management issues, and develop the ability to understand simple budgets, how to make tradeoffs between choices, and connecting budgeting skills to enterprises and other firms/careers. Participants will leave with tools and confidence to expand financial education and information into their communities.

## **Productivity Treasure Hunt**

Presenter(s): Marcel Horowitz and Ethan Horwitz

*Description:* Do you feel like you have too much to do? Learn how to manage your time, attention, and energy is crucial to creating priorities effectively, managing stress, and staying focused. In this session, participants will learn about habits that boost productivity.

## **ABC's of Networking**

Presenter(s): Lynette Ward

*Description:* Now is the time to build your network of genuine connections for mutual benefit in 4-H, college, career and life. In this interactive session with a professional Career Consultant, you will learn the best networking practices and how "AIR" can help you develop new skills and gain knowledge while growing your network.

## **Humanity's Helping Hand**

Presenter(s): Kevin Wentzel, Colby Warwick, and Taylor Gunn

*Description:* Do you have a job that's boring? Time-consuming? Dangerous? Do you wish you could find someone to do it who wouldn't complain or ask for a pay raise? How about a robot? Through technology, we are able to find a helping hand for humanity. You will learn about robots from Sci-Fi to work to exploration to school, and to learn more, we will code and program Ozo the ozobot. Come join us as we journey with him through the farm and help him along his way, but sorry, he won't be able to do your homework for you.

### **Soap for Hope and Emerald Star and Beyond**

Presenter(s): Heater Sutherland, Ruby Juballa, Raymond Juballa, and Rosanne Balla

*Description:* This workshop highlights how Soap 4-Hope an Emerald Star project met the criteria of a service learning project and more. It will include a full soap making demonstration, Participants will walk away with soap, DIY instructions, marketing tools, and the inspiration to lead a Soap 4-Hope project in their respective club or county.

### **Bridging Group to Team (All-Star Session)**

Presenter(s): Gemma Miner, Jada Ho, and TJ Suit

*Description:* Using Tuckman's theory of team development plus two additional theories, this session will help participants understand the normal stages of team development. Through discussion and practice, participants will understand how to recognize and bridge their groups into teams.

### **Learning through Serving**

Presenter(s): Dillon Sanchez, Alex Hascall, and Maura Rose Fiorenza

*Description:* Join in on this workshop, which will introduce you to Civic Engagement through the world of comic book superheroes and villains. Transform yourself into your superhero identity, give your input and help the city council find out the issues, weaknesses and strengths it faces by using a root cause tree and an organizational chart.
